

Inclusion Policy

I will ensure that all the children are treated with equal concern and respect. I will actively promote anti-discriminatory practices for all children.

I will welcome all existing codes of practice and legislation including the Equality and Human Rights Commission.

I will not discriminate against any child on the grounds of disability, race, sexual orientation, age, class or HIV/Aids status.

I dislike and will challenge racist or discriminatory remarks, attitudes and behaviour from any child in my care or adult.

I will encourage children to feel good about themselves, helping each child to learn and develop to their full potential. I will take into account their age and stage of development, ethnicity, home language, gender and ability.

I have toys which provide positive images and examples of diversity of life in our society and encourage all children to play with them.
